AMA CHARTER CLUB #397

NAPERVILLE, ILLINOIS

NOVEMBER, 2019

Hi Guys,

It's November and the cold and snow is upon us. The outdoor flying season is about over; it's time to build and fly indoors. For me, it's time to clean my shop and basement of all the unneeded stuff I have accumulated over the last several years. Not a job I am looking forward to. LOL.

At our November meeting, we will vote for club officers for the 2020 year. So, come to the meeting to vote and give your support to the club. The Board is here to serve you and we can't do our jobs without your support. It's your club and we need your help. We will also need your input for our Christmas Auction. What would you like us to buy for the auction? They are your points and we need your suggestions. I will be sending several blast messages out so you can give us your ideas on auction stuff. I will also send out a blast asking if you will be at the December meeting, which is on January 7<sup>th</sup> due to Holidays. We need to know so we can order food, for the meeting.

We did a presentation about our hobby and club to Troop 505/1505. Harlan Davis, Peter Fales and I did the presentation. There seemed to be a lot of interest in model aircraft flying, and our club. We invited the Troop to a learn to fly day in the Spring, I hope we can work this out. I will be looking in to getting the club back to Clow airport's annual Cavalcade of Flight in 2020. We had a lot of fun last year and generated a lot of interest for our club and model aircraft.

I will be talking with the Forest Preserve, to see if they can cut the tall weeds and grass around the field, like they did last year. We did get them to put a new start stand pad in on the east side of the field. We moved a start stand from the west side to the new pad. The old pavers were removed, and grass was planted. Thanks to the Forest Preserve for all their help keeping our field the best in the county.

As building starts, we all need to remember safety is as important in the shop as at the field. So, follow some basics safety practices in the shop so you can enjoy the build season.

As always,  
Fly Safe  
PRES  
Tommy
